Gel for Tire

Version 01
April 2017
Page 1/2

Type: Gel.

Physical form: Clear Liquid Gel.

Special properties: The Gel for Tires is to be applied to the side of tires giving a durable wet glossy look as an aesthetic final touch to their appearance.

Description: The Gel for Tires is specially formulated to give a durable wet look glossy appearance to rubber tires.

How to use: PERMAGARD GEL FOR TIRES is ready to use and doesn't need to be diluted. Apply a small quantity (approximately 1 table spoon) of the product on a slightly wet foam sponge, then wearing rubber gloves, apply the gel uniformly on the sides of tires. Use a suitable rag cloth to remove any surplus of product by dry buffing the treated surfaces. Do not apply to the tread.

Handling precautions: Before handling, read product information safety data sheets and label on the container for safe use.

Usable life and storage: PERMAGARD Tire Gel has a usable life of 18 months from date of manufacture.
